As rising costs will have a continuing impact on income and expenditure for some time, regular and robust budget monitoring will be essential to support good financial management. Rising costs must be absorbed within available funding and continual assessment of their effect on meeting your school priorities is essential. It remains the school's responsibility to ensure that your budget forecast of outturn includes reasonable estimates of all elements of income and expenditure and that it accurately reflects the management decisions of the school.

**You are reminded that schools are not permitted to incur a deficit and that you must contain expenditure within your funding allocation. If a school is having difficulty in containing its expenditure within available resources we would ask that you inform us by emailing [sfmt@surreycc.gov.uk](mailto:sfmt@surreycc.gov.uk).**

In accordance with normal practice, schools will be required to submit a revised forecast of outturn for 2022/23 together with their draft three year forecasts for the period commencing April 2023 by the end of November.

If you have any questions regarding this letter please email: [sfmt@surreycc.gov.uk](mailto:sfmt@surreycc.gov.uk).

Yours sincerely
